Harrington

High Street, Harrington

Harrington is uniquely located within the Barrington Coast on the northern entrance of the Manning River in NSW. Known as a fishing paradise, the area is home to a bountiful coastline and pristine national parks. The European history of the area has a strong maritime flavour as captured by the creative totem characters dotted through the town.

Close to the centre of town and only one street back from the Manning River esplanade, upon completion the 6-hectare site will provide premium land lease living to the over 50s.
